

Alur Aplikasi

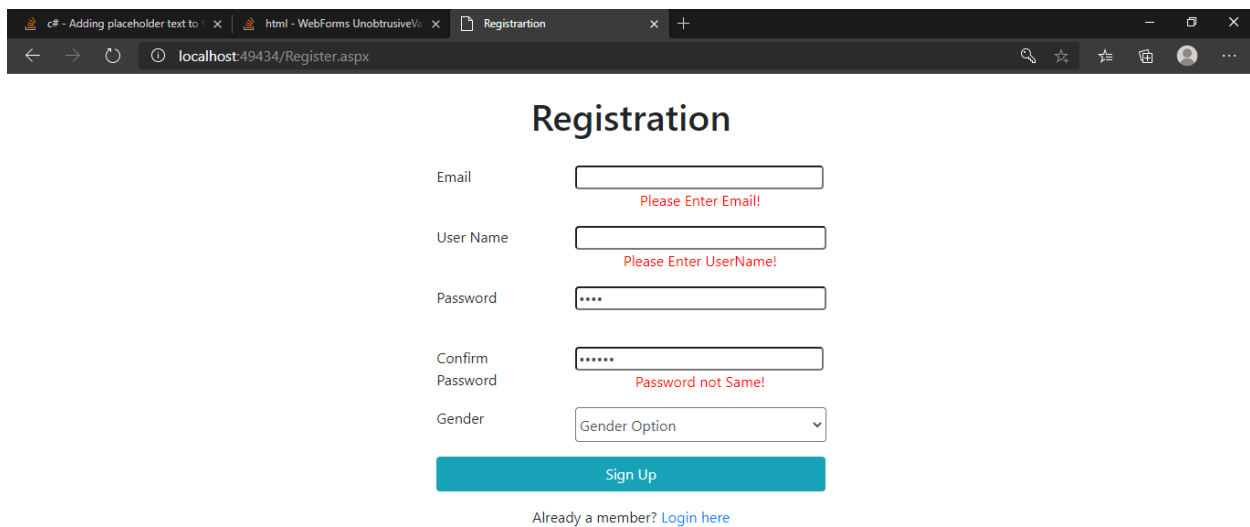

Register.aspx → Login.aspx → Admin.aspx

Setiap halaman memiliki *session*.

- Halaman Admin bisa di akses Ketika sudah melakukan *login*
- Halaman Login dan register bisa di akses Ketika *session* = null (sudah *logout*)

Insert Data User

- *Email, UserName, Password* tidak boleh *null* (kosong)
- Untuk *Confirm Password* harus sama dengan *Password*
- Gender berupa *dropdown list* (*Male* dan *Female*)

The screenshot shows a web browser window with the address bar displaying 'localhost:49434/Register.aspx'. The page title is 'Registration'. The form contains the following fields and labels:

- Email: (Error: Please Enter Email!)
- User Name: (Error: Please Enter UserName!)
- Password: (Masked with four dots)
- Confirm Password: (Masked with six dots) (Error: Password not Same!)
- Gender: (Dropdown menu)

Below the fields is a blue 'Sign Up' button. At the bottom, there is a link: 'Already a member? [Login here](#)'.

The screenshot shows a web browser window with the address bar displaying `localhost:49434/register.aspx`. The page title is "Registration". The form contains the following fields: Email (filled with `ibnujs1997@gmail.com`), User Name (filled with `ibnu`), Password (masked with dots), Confirm Password (masked with dots), and Gender (a dropdown menu set to "Male"). Below the form is a blue "Sign Up" button. At the bottom, there is a link: "Already a member? [Login here](#)".

Email yang sudah teregistrasi tidak dapat melakukan registrasi kembali

The screenshot shows the same "Registration" page as before, but with an error message. A red box highlights the text "Email Has Registered!" in the top left corner of the page content. A red arrow points from this box to a white box with a black border containing the text "Error Handling". The form fields and the "Sign Up" button are visible below the error message. The "Sign Up" button is now disabled. The link "Already a member? [Login here](#)" is still present at the bottom.

Login.aspx melakukan pengecekan *email* dan *password* ke *database* jika ada maka akan ke halaman *admin.aspx*
